CONTAINMENT AND PREVENTION MEASURES AGAINST THE SPREAD OF COVID-19
ESSENTIAL DIRECTIONS FOR FAMILIES

In the complexity of the health emergency due to Covid-19, school starts in presence, with the commitment to ensure proper conditions of safety and workplace wellbeing to all the community, being aware that everyone has to face the difficulties with responsibility. In this context, we have defined some brief indications for parents, which will be deeply described in the “**Patto di corresponsabilità per la salute e la sicurezza nella scuola**”, and which will be shared with all the families of the educational institution.

1. **Keep your child at home:**

- In the presence of fever over 37,5°, or flu-like symptoms (sore throat, cough, cold, conjunctivitis, diarrhea, vomit, etc...)
- In case of manifestations of fever **in the last 3 days**
- If a member of the family is in quarantine
- If in the last 14 days there has been a contact with a person tested positive for Covid-19

2. Provide the school with **one or more telephone number which can be always contacted.**

3. **Come promptly to school to pick up your child in case of a phone call:** be aware that in presence of fever over 37,5 ° or other symptoms, the child will not be allowed to enter school.

4. Be aware that your child will have to respect the hygienic-sanitary indications inside the school, in particular: **a correct use of the mask, the frequent hygiene of the hands, the social distancing of at least one metre from the other students**, the permanence in the spaces intended for the activities according to the indications of the teachers.

5. **Parents will not be allowed to enter inside the school.**

6. Endow your child every day with a **surgical mask or a washable one**, new or daily washed and sanitised. Further masks will be provided from the school as soon as they will be available.

7. Provide your child **only** with the **necessary school material** required to attend the didactic activities, on the basis of what is planned in the lessons weekly timetable.

8. **Do not stop in front of the school's entrance gates, except for the necessary time.**

9. Respect strictly the entrance and exit's time frame depending on the own class, as previously published on the school's website and communicated to the representants.

10. **If your child is absent for more than 3 days it is compulsory the presentation of the medical certificate.**
